

**Joining
Global
Hareline:
Hashruns.org**

There are already websites that provide links to Hash Kennels across the world.

Introducing www.hashruns.org:
the world's first Global Hareline!
Hashers can now discover your Kennel's runs using a simple web interface and powerful search.

We're still in development, but we are ready to open it up for beta testing.

Joining Global Hareline

If your Kennel is on Harrier Central and is already publishing runs, just let us know you want to join as the default is not to publish—consent is important. We will “throw the switch” to make your runs instantly visible on: www.hashruns.org.

Copy link to run

Edit Run / Event

Link to Run

HC Admins can now find a link to their run that they can share. This is especially handy for Kennels without a formal website.
